

Bird Netting

Keeps them out

Our bird netting can be installed over

- Windows
- Courtyards
- Vents
- Gardens
- Wherever birds are getting through to get inside or on your building.

The nets are black for limited visibility and for U.V. protection from our strong African sun.

Our nets are 4.5 meters wide (stretchable) in lengths of up to 50 meters. These nets are made of strong nylon material designed for years of service.

Supplied by Pigeon Control Services cc
